

CarlubeTM

**Fuel, oil
& radiator
additive
range**

Diesel Treatment

- Ensures maximum fuel system efficiency in all diesel engines with or without a turbo charger.
- Maintains inlet valve and injector cleanliness.
- Improves power & response.
- Helps clean glow plug for easier starting
- Reduces exhaust emissions.
- Improves fuel economy.
- Protects against fuel system corrosion.
- Suitable for use with catalytic converters.
- 300ml package content treats up to 50 litres of diesel fuel.
- For best results use every fill up.

Product code: QPD300

Diesel Injector Cleaner

- Ensures maximum fuel system efficiency in all diesel engines including turbo charged and direct injection systems.
- Clears clogged fuel injectors and reduces inlet valve deposits.
- Contains Cetane Improver to help improve performance.
- Improves fuel economy.
- Reduces exhaust emissions.
- Prolongs life of fuel system.
- Suitable for use with catalytic converters.
- 300ml package content treats up to 50 litres of diesel fuel.
- For best results use every 5 000km or once every 3 months.

Product code: QID300

Diesel Clean-Burn

- Immediately helps to reduce black smoke in diesel engines by improving combustion efficiency.
- Improves fuel economy.
- Cetane booster improves cold start and helps reduce diesel noise
- Protects against fuel system corrosion.
- Suitable for use with catalytic converters.
- 300ml package content treats up to 50 litres of diesel fuel.

Product code: QDC300

Diesel AntiFreeze

- Enhances diesel fuel flow in cold temperatures.
- Helps to prevent the fuel filter clogging by precipitated paraffin.
- Moves down the freezing point up to -10°C .
- Contains a detergent additive to help maintain the cleanness and efficiency of the entire fuel system.
- 300ml package content treats up to 50 litres of diesel fuel.

Product code: CAD300

Dry Fuel

- Suitable for diesel and petrol engines.
- Absorbs water from the fuel tank.
- Prevents icing in the fuel system.
- Provides better cold start.
- Protects against rust and corrosion.
- Cleans fuel injectors.
- 300ml package content treats up to 50 litres of fuel.

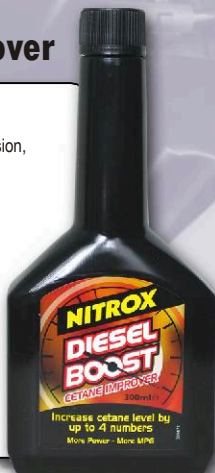

Product code: CFD300

Diesel Boost - Cetane Improver

- Increases Cetane number of diesel fuel by 4 Cetane's
- Fuel with higher Cetane number withstands higher compression, increasing power and engine performance.
- Cleans injectors and combustion chamber.
- Helps to reduce exhaust emissions.
- 300ml package content treats up to 50 litres of diesel fuel.

Product code: NCE361

diesel and petrol fuel additives

Petrol Treatment

- Ensures maximum fuel system efficiency in all petrol engines including injection and carburettor systems.
- Maintains injector spray patterns and keeps carburetor jets clean.
- Helps to reduce exhaust emissions.
- Improves fuel economy.
- Helps keep spark plugs clean.
- Suitable for use with catalytic converters.
- 300ml package content treats up to 50 litres of petrol.
- For best results see every fill up.

Product code: QPP300

Petrol Injector Cleaner

- Ensures maximum fuel system efficiency in all petrol engines including injection and carburettor systems.
- Restores injector spray patterns.
- Reduces inlet valve and carburettor deposits.
- Helps to eliminate stalling and hesitation.
- Improves fuel economy.
- Helps to reduce exhaust emissions.
- Prolongs life of fuel system.
- Suitable for use with catalytic converters.
- 300ml package content treats up to 50 litres of petrol.
- For best results use every 5 000km or once every 3 months.

Product code: QPI300

Petrol Boost - Octane Improver

- Increases Octane number of petrol by 2 Octane's
- Fuel with higher Octane number withstands higher compression, increasing power and engine performance.
- Cleans injectors and combustion chamber.
- Protects against engine knocking.
- 300ml package content treats up to 50 litres of petrol.

Product code: NOB300

Stop Smoke

- Concentrated blend of shear stable polymer which has been specifically formulated to help reduce oil burning and smoke emission in older high mileage engines.
- Seals gaps between worn engine parts.
- Reduces blue exhaust smoke emissions.
- Reduces engine oil consumption.
- Improves compression and performance.
- Suitable for use with mineral and synthetic engine oils.
- 300ml package content treats up to 5 litres of engine oil.

Product code: QSS300

Engine Flush

- Cleans engine interior from sludge and deposits.
- Neutralizes harmful engine acids.
- Contains additives protecting engine during cleaning process.
- Suitable for use with mineral and synthetic engine oils.
- Frees valves and sticking engine parts.
- 300ml package content treats up to 5 litres of engine oil.

Product code: QPF300

Oil Treatment

- Protects and extends the efficiency of petrol, diesel and LPG engines with or without turbo chargers.
- Reduces carbon deposits.
- Improves engine's compressions, reduces oil use and gas emissions.
- Compatible with all mineral and synthetic oils.
- Harmless to catalytic converters.
- 300ml package content treats up to 5 litres of engine oil.

Product code: QOT300

engine oil additives

Radiator Flush

- Effectively improves cooling by dissolving rust, scale and sludge generated in the engine cooling system.
- Prevents the formation of blockages in the cooling system, which could lead to engine overheating.
- Can be used in all cooling systems including aluminium.
- Limits the action of corrosive acids.
- Designed for systems with up to 10 litres capacity.

Product code: RAF301

Radiator Sealer

- Repairs leaking radiators quickly.
- Makes a tough long lasting repair.
- Contains rust inhibitors.
- Does not affect anti-freeze.
- Treats up to 10 litres.

Product code: RAS301

Engine Block Sealer

- Suitable for all vehicles and compatible with all types of antifreeze.
- Permanently seals leaks in the engine and radiator cooling system.
- Helps to prevent cylinder head gaskets blowing.
- Contains corrosion inhibitors to protect the engine and radiator.
- Seals most leaks in engine blocks, cylinder heads, head gaskets, freeze plugs, water pump gaskets and radiator and heater cores.
- Treats up to 25 litres. If treating under 8 litres use half the bottle only.

Product code: EBS300
